TEXAS TSA PROJECT DOCUMENTATION

Category #: **HP22002**   Chapter #: **2**   TX TSA Student ID: _____

This documentation is required for all Texas TSA rulebook categories. The documentation form is to be completed by the student and unique to each project. Standard completed documentation forms will result in disqualification of those projects.

Category Description:

This project is a commercial website which was created by me, the student. The site advertises a fictional digital agency called Pixel sprout which helps people learn and make websites and design their brand. All images, graphics, and text are original content created by the student following Texas TSA rules.

Process Description:

Use 5-10 complete sentences to describe the process you used to complete this project.

To complete this project, I first planned out the structure of this website by using VS code and creating a project folder with html files and css folder with css files in it. Java script files were also added in the future. I created a fictional business to avoid the copy right names and images. I designed the logo and graphics myself to meet the TSA requirements. Next, I created the main homepage using HTML, CSS, and JavaScript which includes the sections about the services, about, and contact section. I then added 2 addition pages which are the products and portfolios page to make the site feel like a real business. I used CSS to style the layout and create a visually appealing site and theme across the pages. This was probably the most fun I had coding as trying out different styles I have learned and seeing which ones look good was so fun! After coding the style, I tested all the links, navigation, and scrolling behavior to make sure everything was functioning properly and then I organized all the files inside their respective folders such as styles, scripts, and images. Finally, I reviewed the work to confirm all the content was original, met my standards, and followed the TSA guidelines.

Copyright Certification:

MUSIC

If your solution to this competitive event integrates any type of music and/or sound, is the music and/or sound copyrighted?

Yes ☐   No ☑

If YES, ask for permission and if permission is granted, include the permission in your documentation. If it is royalty free music/sound, cite the royalty free music/sound OR your original music/sound properly in your documentation.

GRAPHICS/VIDEOS

If your solution to this competitive event integrates any graphics/videos, are the graphics/videos copyrighted, registered and/or trademarked?

Yes ☐   No ☑

If YES, ask for permission and if permission is granted, include the permission in your documentation. If it is royalty graphics/videos are royalty free, cite the royalty free graphics/videos OR your own original graphics/videos properly in your documentation.

THOUGHTS/RESEARCH

If your solution to this competitive event uses another's thoughts or research, have you properly cited another's thoughts or research in your documentation?

Yes ☐   No ☑

I, _____ (chapter advisor initials), have checked my student's solution and confirm that the use of any music, graphics, videos, and research of another's is done so with proper permission and is cited correctly in the student's documentation and/or the solution has been found to have all original thought with no use of other's thoughts/research.
